

# How to stay safe online

By Carys ,Ella and Anna

# Passwords

- What does a password do?
- Why do you use them?
- What do you need to include in them?

# Passwords

- To have a secure password means to have a mix of Numbers, Letters and Symbols in it, we call it N.L.S for short.
- To make sure your password is safe you can go onto a website called 'How secure is my password.'
- NEVER share your password with anyone. Whether it is an online friend, or your best friend, still don't.
- Make an exception for parents!!!

## Real or fake

We are going to play a game to determine which picture is real and which one is fake.

12

## Photoshop

Photoshop is an app where you take a picture and you change it to make it something it's not. So make sure that what you see is true by checking it two or three different slides.

## Cyber bullying

What is cyber bullying?

What do you do if you get cyberbullied?

What you should do and what you should not do?

## Cyber bullying

If you ever get sent a mean or inappropriate message here are some tips for you :

- Don't reply or say a mean thing back
- Never delete the message
- Show to a responsible adult ( a teacher, parent or relative)

Pegi

What does  
Pegi stand  
for?

What does it  
mean?

What does it  
help you to  
do?

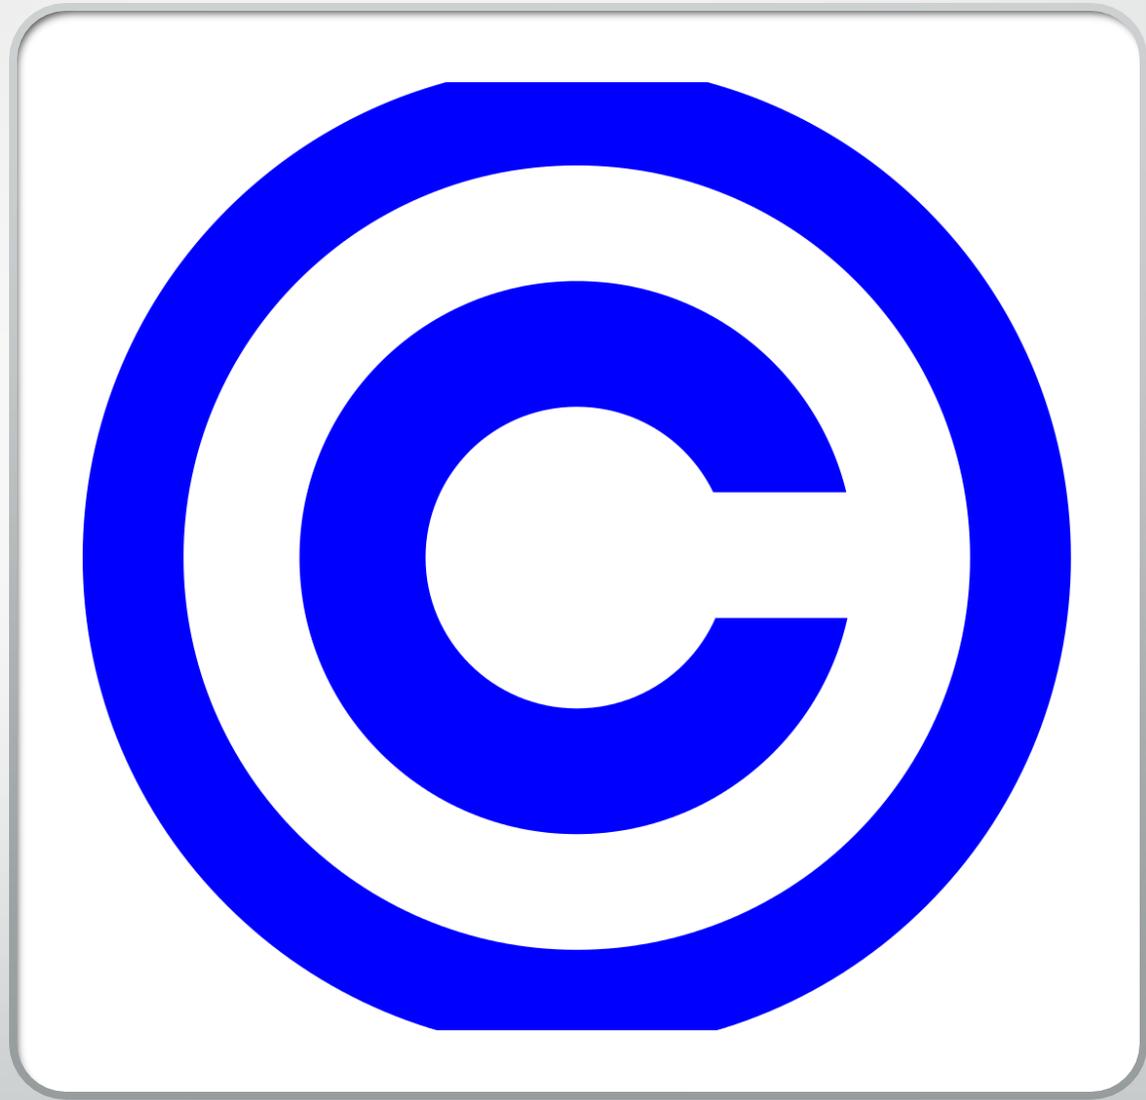

# PEGI

- PEGI stands for:  
Pan European Game Information.
- PEGI is a rating system used for video games to help people make good decisions whilst buying.
- It is most important to play games by your age restriction because you might see things on older games that might be inappropriate for your age.

# Copyright

- What is copyright?
- What does it do?

# COPYRIGHT

- Copyright is an exclusive right given to a creator and their work.
- The creators can give authorisation to some people, to allow them to use their work
- If you use another person's work, music, images without their permission or buying their work you have broken copyright law.

**copyright**
